

**An Exhibition by
Llewellyn van Eeden
& Gazelle**

**20 JANUARY TO
3 FEBRUARY 2022
GALLERY ONE11
CAPE TOWN**

- POSTCARDS FROM PARADISE -

In an exercise to deconstruct history and reassemble it into inspiring objects of beauty, Gazelle continues to explore a constant study of iconography and the power of symbolism.

By creating a fictional 'His Story' through playful cultural propaganda he looks at how narratives of generational storytelling can become self-proclaimed truths.

Postcards from Paradise came to life as a reimagined visual representation of South Africa's nine provinces inspired by Pierneef's station panels in a two-year collaboration with illustrator Llewellyn van Eeden.

Through an alternative take on magic realism, mythological and historical references weave into a fantastical balance of symbolic colloquial elements of landscape, fauna, and flora, in a manufactured scenography that unpacks how culture infinitely evolves and questions any totalitarian ownership over it.
